## FEEDING RECOMMENDATIONS

- Provide veld pasture and/or other roughage unrestricted together with these lick supplements
- Replace up to 10% of the grain meal with molasses syrup / - meal if preferred
- Once animals are adapted, the best regulated intake is achieved when providing these lick supplements unrestricted at all times
- Provide adequate trough space to ensure that all animals receive the required amount per day
- Consult a Feedtek nutritionist if intakes vary markedly from recommended levels after 14 days on the supplement
- These supplements contain NPN – mix thoroughly, protect against rain and do not feed to horses
