

CHOC GRAIN 69

PROTEIN MINERAL TRACE MINERAL VITAMIN
CONCENTRATE FOR HOME MIXING OF CHOCOLATE GRAINS

KEY ADVANTAGES

- Most concentrated chocolate grain concentrate on the market
- Contains hydrated lime – best adhesive and excellent buffer
- Contains ionophores – prevents digestive disorders and improves feed conversion
- Contains ammonium salts – prevents urinary calculi in small stock

EXAMPLES OF CHOCOLATE GRAINS

INGREDIENT	CHOCOLATE GRAIN	CHOCOLATE GRAIN YOUNG LAMBS
Whole Maize	900	900
Fish Meal		30
Water	40	40
Choc Grain 69	60	60
Total (kg)	1000	1030
Composition (%)		
Protein	12,28	13,82
Protein from NPN (% of Total)	33,31	28,73
Calcium	0,82	0,95
Phosphate	0,31	0,38
TDN Energy	78,75	78,61

MIXING INSTRUCTION

Spread grain evenly on a hard surface, wet with water, mix water through, add Choc Grain 69 (and fish meal), mix through and leave to dry before bagging

FEEDING RECOMMENDATIONS

- Consult a Feedtek nutritionist if alternative ingredients are available
- Feed 200-300 g/day as an energy supplement for small stock on grazing
- Provide ad lib as a creep feed for pre-weaned lambs
- For finishing adapt animals gradually over 7 days onto grain
- Provide additional roughage together with grain for finishing
- Provide ad lib after adaptation - keep feed troughs full
- May not be fed to horses
