Dripro 64

Reg. No. V35163 Act 36/1947

ECOVITE DRIPRO 64 is a versatile, weather-resistant protein concentrate that can be mixed with salt and other raw materials to produce weather-resistant protein licks for ruminants.

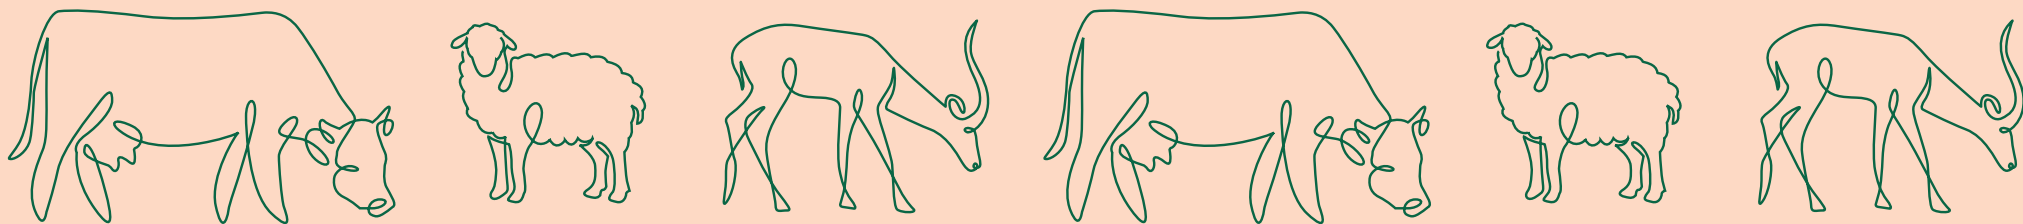

ECOVITE DRIPRO 64

- Contains protein in the form of NPN
- Contains sulphur (S) in the correct ratio to nitrogen (N).
- Supplies minerals, trace minerals, vitamin A and B vitamins.
- Reduces the risk of NPN poisoning by making licks weather-resistant.
- Is palatable, thus ensuring adequate lick intakes.
- Can be used as a raw material in any ruminant feed.
- Prevents the segregation of ingredients in feed mixtures.
- Disperses easily in lick mixtures due to small particle size.
- Is a good binder for lick blocks.
- Contains no growth promoters or other medications.
- Packaged in convenient 25 kg bags.
- 24 Month shelf life – store in a cool, dry place away from direct sunlight.

COMPOSITION			
g/kg		mg/kg	
Crude Protein (min)*	645	Zinc (min)	600
Protein ex NPN (max)	%91,5	Manganese (min)	600
Calcium (min/max)	40/60	Copper (min)	150
Phosphorus (min)	0,8	Iodine (min)	20
Moisture (max)	120	Cobalt (min)	2
		Selenium (min)	4
		Vitamin A (IU/kg)	20 000
